

Senior Project & Operation Manager – Portland, US

SCADA INTERNATIONAL IS LOOKING FOR A SENIOR PROJECT & OPERATION MANAGER IN PORTLAND

First of all, we would like to thank you for your interest in SCADA International and in this position. SCADA International is passionate about making a difference and strives towards continued growth for both its customers and employees.

ABOUT SCADA INTERNATIONAL

SCADA is an international and successful Danish company with subsidiaries in Germany, Poland, US and Ukraine. We are a dynamic company with a vast amount of experience within SCADA systems, SCADA application solutions, Park Network Solutions and Energy Power Control.

We are 80 dedicated and motivated employees, and we are looking for a skilled and experienced colleague for our project and operation department, who will help us ensure that we continue to provide world class service for our global customers.

Our vision is to be the most trusted global partner within SCADA technical support and solutions for the renewable energy industry.

For more information about SCADA International, please visit: www.scada-international.com.

POSITION

Do you want to be a part of the continued growth and success of SCADA International and work within renewable energy?

Are you motivated by working in an international company to broaden your international experience and build on your strong Project and Operation Management skills in a technical environment?

Are you a Senior Project & Operation Manager with a desire to work hands-on with a strong technical team and lead a group of competent colleagues?

Then you might be our new colleague for our team in Portland.

MAIN RESPONSIBILITIES

As a Senior Project & Operation Manager you will be responsible for a portfolio of projects and do hand-on project management together with our Technical Project Manager. At the same time, you will lead and manage the US technical team and ensure good collaboration with the global team of technical employees. You will drive people performance and development plans, ensure efficiency and quality as well as keep SCADA an attractive workplace. Handling of project risks and opportunities are key part of the job.

You will:

- 1) Do project management of all US projects, both as independent project manager and as portfolio project manager.
- 2) Have regular customer contact and manage internal and external stakeholders with a high level of authority and trustworthiness. You have a strong commercial understanding of both SCADA International and customer interests.
- 3) Lead and manage the US technical team and ensure good collaboration to the global team of technical employees.

The Senior Project & Operation Manager will refer to the Global Project Management Office (PMO) function. The PMO function will together with the Senior Project & Operation Manager ensure overall

prioritization of tasks and resources which will be put into tactical plans in collaboration with the global resource Owner.

You will be part of an international team of competent and helpful colleagues in the SCADA group. Furthermore, you will deal with customers and work closely with your colleagues in PMO, Sales and Engineering & Design to ensure that all projects are executed and handed over to customers to the agreed cost, quality and within deadline.

CANDIDATE BACKGROUND

You are an experienced Project and/or Operation Manager with a 5-8 years' track record combined with technical knowledge preferred within network, server equipment, server administration and electrical equipment. You might have experience from the renewable energy business.

You are systematic of nature and you like to work within ERP systems being hands-on as well as lead the team towards goals with the customers in focus, and you thrive in a dynamic and hectic working environment where no task is too small or too large. You have a desire for leading people and can demonstrate a proven track record of management. You are a global team player and embrace collaboration.

You communicate fluently and effortlessly in English. From your previous positions you understand the importance of good interpersonal co-operation skills as well as cultural understanding from working with different nationalities.

Good IT skills are expected and knowledge of Navision will be a plus.

WHAT WE OFFER

You will be offered a high degree of freedom and will be given the opportunity to play a vital role in development of SCADA International. Besides a competitive benefit package, we offer an entrepreneurial and friendly environment. You will of course be enrolled into our onboarding program and receive a thorough introduction to all functions.

HOW TO APPLY?

To apply, please send your CV and application to job@scada-international.com and label it "**Senior Project & Operation Manager US**" by 12 January 2018 at the latest. If you have questions before you apply, please do not hesitate to contact our PMO Director, Hans Henrik Puggaard, DK +45 2368 2492 / US +1 503 780 4846.

WE LOOK FORWARD TO HEARING FROM YOU!
