## Controller

Would you like to be part of a growing, entrepreneurial business within renewables? Do you see yourself as highly specialized in financial controlling and digitalizing processes in finance departments? Then you might be our new colleague. Join SCADA International and be a key player in driving financial excellence and strategic initiatives within our dynamic and innovative organization.

SCADA International is seeking a talented and experienced Controller or Finance Manager to join our Finance team in Silkeborg, Denmark.

### Your role

This role is crucial for increasing efficiency through process optimization, addressing the current backlog of tasks, and enhancing the quality of financial controlling. The successful candidate will bring more experienced knowledge to support the team effectively.

Your main responsibilities will be:

- Financial Controlling: Manage consolidation, elimination, transfer pricing, audit, and other financial control processes.
- Business Controlling: Handle business unit P&L, reporting, and provide support to various business units.
- Project Controlling: Offer support to business units on project-related financial matters.
- Budgeting/Forecasting: Develop and manage budgets and financial forecasts.
- Analysis: Conduct detailed financial analysis to support decision-making.
- Team Support: Provide day-to-day support to the finance team with an experienced leadership approach.
- Process Optimization: Enhance efficiency through the optimization of financial processes.
- Strategic Alignment: Ensure financial activities align with overall integration objectives.
- Ethical Standards: Uphold strong ethical standards and integrity in financial reporting.

### Your background

The ideal candidate has an educational background corresponding to HD or Cand. Merc. The ideal candidate will have 5-10 years of experience from a similar-sized company and role. This position will be an important part of our shared service center, supporting the entire organization globally. Candidates with any additional relevant certifications or advanced degrees will be preferred.

To be successful in this position, you:

- Have extensive experience in financial controlling in an international company, including experience with consolidation, eliminations, transfer pricing, and audit.
- Are proficient in business controlling.
- Have experience in project controlling.
- Possess strong skills in budgeting, forecasting, and financial analysis.
- Are detail-oriented with a strategic mindset.
- Have the ability to align financial activities with broader organizational goals.
- Possess strong ethical standards and integrity in financial reporting.
- Have clear and effective communication skills.
- Are able to translate complex financial data into actionable insights.
- Have experience with Business Central
- Are an experienced Excel, Power BI, and Data warehouse specialist.

If the description above sounds like you, we would love to hear from you!
